

## Languru - Project Description

Project Description	
Project Name:	Languru
Team:	Radiant
Project Description:	<p>Recording voice and breaking down the sound of a word with real-time feedback on users pronunciation accuracy.</p> <p><b>For</b> customers <b>who</b> want to improve their English pronunciation. <b>the</b> Languru <b>is a</b> mobile app <b>that</b> checks users' single words and provides accurate feedback. <b>unlike</b> the traditional way English learners get feedback from their teachers. <b>our application</b> brings together the best of language and guru to help English learners improve their pronunciation and fluency.</p>
Benefit Outcomes:	<ul style="list-style-type: none"><li>- Users can improve their speaking skill anywhere and anytime.</li><li>- Users can record their voice and receive feedback from Languru to improve.</li><li>- Users will have a number of topics to choose to master their speaking skill.</li></ul>
